

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

## "A Remarkable Collection."

The Burton library was the accumulation of a lifetime, for its owner was a mere boy when he began to form it. For many years, during the flush times in the eighties, when he was one of the leading men concerned in the great mining enterprises of the Gogebic range, Mr. Burton was untiring in his search for books that appealed to his tastes, and bookdealers in all the large cities of this country and in London, Paris and Amsterdam, the great book marts of the world, were on the lookout for treasures sought by Mr. Burton. At many of the great book auctions in Boston and New York his representatives were on hand to bid in what he wanted."—*Milwaukee Free Press*.

The Library of the late **ISAAC DAYTON**, of this City. A large collection of the best and, in many cases, rare editions of the famous authors, long sets of the best-known and valuable *Magazines and Reviews*—altogether the most attractive gathering of readable and generally desirable books offered at public sale this season. The library is in excellent condition, a great number of books in elegant bindings. Part I. to be sold March 10th and following days; Part II. in April.

The literary and artistic collection of the late **WILLIAM CAREY** of the Century Company, comprising about 1,200 volumes of general literature—many of the books being presentation copies from the authors; scarce pamphlets; about 500 Etchings by the masters of that art—many of the specimens being beautiful proof impressions. Also a large number (several thousand) of interesting and scarce **Autograph Letters** and **Manuscripts**, many of which have never been published.

A Remarkable Collection of First Editions of Modern Writers, including complete sets of the works of Robert Browning and Mrs. Browning, also fine series of Stevenson, Lowell, Whittier, Shelley, Keats, Halleck and Tennyson, and many other rarities, principally from the collection of **A. J. MORGAN, Esq.** to be sold without reserve, in March.

Other interesting Catalogues are in preparation, and Sales of Books are held every afternoon except Saturday

## "A Remarkable Collection."

The Burton library was the accumulation of a lifetime, for its owner was a mere boy when he began to form it. For many years, during the flush times in the eighties, when he was one of the leading men concerned in the great mining enterprises of the Gogebic range, Mr. Burton was untiring in his search for books that appealed to his tastes, and bookdealers in all the large cities of this country and in London, Paris and Amsterdam, the great book marts of the world, were on the lookout for treasures sought by Mr. Burton. At many of the great book auctions in Boston and New York his representatives were on hand to bid in what he wanted."—*Milwaukee Free Press*.
